7.00 A. M.	71
8.00 A. M.	72
9.00 A. M.	74
10.00 A. M.	78
11 A. M.	80
12 Noon	82
1 P. M.	84
2 P. M.	86
3 P. M.	88
4 P. M.	90
5 P. M.	92
6 P. M.	94
7 P. M.	96

With the temperature rising steadily and old Gen. Humidity at the job the city rose to a really uncomfortable snap of weather to-day. At an early hour the mercury took the elevator, going up with the sun. Old Gen. Humidity and his staff of old men and persons of cautious bent laid their straw hats with cabbage leaves.

On the east side, where the first shaft of sunlight jabs a million persons out of slumber, the tired, who had taken comfort out on fire-escape and roof, rose with a sigh and sought shelter in stuffy inner rooms. In the ambulance stables, the drivers and hostlers were up early feeding and freshening the horses for a hard day's work. The weather man was the busy man, drawing in his last night's prediction to to-day would be marked with local thunderstorms, while to-morrow would be fair. After one glance at the mercurial sky in the east he amended his prediction to "Showers and probable thunderstorms to-night and to-morrow. Fair and cool to-day."

The humidity of the forenoon averaged 91, which, while nothing compared to previous years, was going some for this year, and made the morning oppressive, giving rise to brain-stories that it was a record-breaker. Forecasts at Emory reported that as the hot orb of day swung high and went swinging up to 88 the perspiration was dried out of the atmosphere at a rate which can best be illustrated by the fact that while the humidity was 91 at 10 o'clock, it was 86 at 11 in the afternoon.

The first ambulance call of the day was for John Cody, sixty years old, of No. 80 East Fifty-ninth street. He was prostrated by the heat on One Hundred and Fortieth street, between Amsterdam and Converse avenues, and removed to the J. Hood Wright Hospital.

James O'Malley, an upholsterer, forty-two years old, of No. 231 First avenue, was overcome in front of the house at No. 231 East Forty-seventh street. He fell head backward, striking his head against the sidewalk and may have sustained a fractured skull. He was taken to Flower Hospital in a precarious condition by Dr. Beator.

## TELEGRAPHERS TO POSTAL MANAGER

Declare Companies Have Not Lived Up to Their Agreements.

The Executive Committee of the Commercial Telegraphers' Union held a long session this afternoon to discuss the differences between the operators and the Western Union and Postal companies. At the conclusion of the meeting Deputy President Koenekamp made public an open letter that had been prepared in answer to a statement issued by E. J. Nally, Vice-President and General Manager of the Postal in this city. The operators claim that the Western Union and Postal companies have not lived up to their agreement with the operators in San Francisco and other cities. Mr. Nally is offered an opportunity to confer with a committee from the union, the Executive Committee of a committee of Postal employees to discuss grievances.

The members of the committee refused to say whether or not a local strike had been discussed at the meeting.

OSTER BAY, N. Y., June 25.—President Roosevelt received today a memorial from the Commercial Telegraphers' Union, asking him to be made to ascertain whether the Western Union and Postal companies, at the conclusion of the meeting Deputy President Koenekamp made public an open letter that had been prepared in answer to a statement issued by E. J. Nally, Vice-President and General Manager of the Postal in this city.

The operators claim that the Western Union and Postal companies have not lived up to their agreement with the operators in San Francisco and other cities. Mr. Nally is offered an opportunity to confer with a committee from the union, the Executive Committee of a committee of Postal employees to discuss grievances.

No other labor organization than that at Washington has as yet joined in the appeal to the President, although it is said similar action will be taken by all the leading organizations in the United States.

## SENSELESS WOMEN RESCUED AT A FIRE

Fire which wrecked the interior of a French boarding-house at No. 27 West Thirty-eighth street this morning showed three boarders, two women and a man, and also a woman to be carried to the street overcome with smoke. They were revived soon after. At 8 o'clock John A. Fulton, who had a room on the third floor of the building, smelled smoke, and searching down through the lower part of the house found the basement on fire. Shouting to awaken the residents in the house he rushed to the street, found policeman and the latter called the fire.

Ray Corbin and Gertrude O'Malley were found in their rooms senseless from smoke. Grant Hammond was the man overcome. Searching through the house, looking for the boarders, he found them on the second floor. John Helton, a Frenchman, was found on the second floor, and was carried to the street.

# D. E. ROY DRESSER

Justice Blanchard Refuses to Restrain Wife, Who May Take Children.

Justice Blanchard heard an argument in the Supreme Court to-day on the application of Daniel Le Roy Dresser for an order restraining his wife, Emma Louise Burnham Dresser, who is suing for a separation, from taking their two children to Europe for the summer. There were several interruptions and questions by Justice Blanchard, which indicated that he would deny the application and let Mrs. Dresser do as she pleased.

H. W. Bridges recited that Mrs. Dresser had sued for a separation on the ground of abandonment and said: "Mrs. Dresser denies emphatically that she has abandoned her family, and declares that she has contributed, so far as she is able, to their support."

"Did he leave them?" was Justice Blanchard's first question. "It is true he did leave the apartment where they lived, but it was because he had become impoverished and had to seek more humble quarters. His wife was not willing to follow him."

"My affidavit shows that he went to live in bachelor apartments," interposed Adrian Larkin, counsel for Mrs. Dresser.

"In order to please a father and to enable him to have access to the children he seeks to imprison the mother in this country," exclaimed Justice Blanchard. "I don't purpose to restrain her."

"We are willing to stipulate anything so long as the children are not removed from this jurisdiction," said Mr. Bridges.

"The only question here is what is best for the children. Is there any evidence that the mother intends taking them abroad permanently?"

"That we do not know. If the children are to be taken away, even for three months, a prejudice might be engendered in their minds against their father which could never be removed," said Mr. Bridges.

Mr. Larkin read from a letter of instruction from Mrs. Dresser: "I intend sailing the first week in July and will return early in September. The trial can be brought on in October. We are anxious to come to trial."

Decision was reserved.

## ASTOR COACHMAN FOUND STARVING

Automobiles Cut Him Out of Job—Goes to Work-house.

Bent and tottering with age and nearly dead from starvation, a man appeared to-day before Head Keeper Ryan in the prison of the West Side Court. He sank on a bench exhausted and said he had not had a bite to eat in four days.

"I'm starving," he muttered. "For God's sake give me something to eat." Ryan's lunch had just been served for him in a room adjoining, and without a word the head keeper led the old man there. Ryan fasted, while his charge ate every scrap of food in sight. In charge of the kitchen, the white-haired man was taken before Magistrate Butts.

"My name is Kerkham—Martin Kerkham," said the old man. "I have no home other than the city parks and piers. I'm too old to work for a living, and so beg you to send me some place where I can find shelter and food."

"Time was," continued the old man, "when I lived in plenty. I used to be a coachman and was employed by wealthy families in New York. For several years I was coachman for the Astor family. When the rich people began to give up horses and get automobiles, I lost my job, and then I found no one would give me work because I was so old."

Magistrate Butts committed the pleading man to the Workhouse, and said he hoped he would be well taken care of there.

"I thank you from the bottom of my heart," said the old man as he was led back to the prison pen.

# STOCKS JUMP IN BOOMING MARKET

Pacifics, Amalgamated Copper, Delaware & Hudson and General Electric Lead.

Stocks in the early market to-day showed uniform gains which were more than 1-2 point in the case of Union, Northern and Missouri Pacific, Anaconda, American Car. Business was slightly more active and varied than of late. Among the inactive issues Manhattan rose 1 and International Power fell 1 1-2 and American Can preferred 1 1-2.

The advances were slightly extended in the subsequent dealings. A demand from uncovered shorts in the afternoon caused jumps to the highest prices of the day. These showed gains for Delaware and Hudson, 4 1-2; General Electric, 4; Northwestern, 1 1-2; Northern Pacific, 1 1-4; Great Northern preferred, 1 1-4; American Smelting and Copper, 1 1-4; St. Paul, 1 1-4; New York Central Southern Pacific and C. C. C. and St. Louis, 1; United States Steel preferred, 1 1-4; and several others a point or more.

Profit taking made but small impression on the advances, and there were later recoveries. The market closed strong and active. The total sales of stocks to-day were 452,000 shares, and of bonds 1,097,000.

The Closing Quotations.
